ABOUT FOAM PRODUCTS OF TYLER

Welcome to **Foam Products of Tyler, Inc.** We are a wholesale distributor of foam, fiber, vinyl, carpet, headliner, leather and upholstery supplies. For over 40 years, **Foam Products of Tyler** has been supplying the automotive, marine and furniture industries. We have four locations to better serve our customers in Texas, Arkansas and Louisiana and we ship anywhere in the United States.

John and Diane Grigsby opened **Foam Products of Tyler** in 1974 from humble beginnings. What started in a small warehouse in Tyler, Texas, with a band saw, foam slitter and a shredding machine, has grown into a Tri-State company. The family-owned company acquired a portion of another company and opened a second warehouse in Conway, Arkansas. In 2005, our third warehouse opened in Broussard, Louisiana, south of Lafayette. Over the past 40 years, we have added a variety of lines for packaging, medical, residential, commercial, automotive and marine trades. At Foam Products, our goal is to exceed your expectations. Seeking to better serve those in the mattress, furniture manufacturing and re-upholstery industry, we will ship our products anywhere in the USA and make deliveries throughout the regional southeast.

The Grigsby family continues to own and operate Foam Products with the same commitment they made over 40 years ago: to exceed each customer's expectations by supplying the highest-quality products and individualized customer service every time.

Feel free to call us with any questions you have regarding products, pricing, or services. We look forward to helping with all of your foam and upholstery needs.
